## Spa Pool Instructions for Use

*If the spa is not running when you are ready to use it please open the little door on the side of the spa and turn the little knob to anti clockwise this will turn the spa on.*

### To use the spa:

*On the top of the spa you will see a pad with the temperature highlighted. The recommended temperature for use is 38 degrees celcius. Use the increase and decrease buttons to adjust the temperature to suit you.*

- 1. red triangle = increase temperature*
- 2. blue triangle = decrease temperature*

*If the spa switches off while you are using it, it is because it has reached the temperature set on the temperature pad. To start the spa again increase the temperature (red triangle) until the spa switches on again.*

*There are two round dials on the top of the spa. These are for the jets. Turn them anti-clockwise to turn the jets on.*

### When you have finished using the spa:

- 1. Please remember to turn the jets off (turn them clockwise).*
- 2. If you have increased the temperature past 38 degrees celcius please reduce the temperature back to this level otherwise the spa will overheat.*
- 3. If you have turned the spa on using the knob inside the little door then please turn it clockwise to turn it off.*
- 4. Please also remember to replace the lid carefully*

*If you are not sure how to use the spa please see Carolyn to help you.*

## Activities & Services
